

SUBJECT INDEX

accumulation rate 3: 246–251
adaptive management 3: 301–304
aerial survey 4: 45–47
age determination 3: 246–251
age estimation 2: 5–14, 3: 189–197
allometry 3: 273–280
Antarctic 2: 15–38, 3: 129–138, 3: 198–211, 3: 286–294
Antarctic minke whale 2: 5–14, 2: 15–38, 3: 139–151, 3: 231–238, 3: 281–285, 3: 286–294
anthropogenic activities 4: 27–33
Balaenoptera acutorostrata 1: 15–24, 4: 7–18
Balaenoptera acutorostrata subsp. 4: 27–33
Balaenoptera edeni: 4: 21–26
Balaenoptera physalus 4: 34–39
Balaenopteridae 3: 215–230, 3: 231–238, 4: 21–26
baleen whale(s) 1: 25–28, 2: 15–38
behavioral responses 4: 27–33
blue whale 2: 15–38
Bryde’s whales 2: 39–53, 3: 239–245, 4: 21–26
cetacean 4: 45–47
Chukchi Sea 3: 265–272
coastal Bryde’s whale 1: 3–13
Cololabis saira 4: 7–18
common minke whale 1: 15–24, 2: 39–53, 3: 246–251
control region 3: 152–163
Cox regression 3: 307–316
density estimation 3: 258–264
diminutive minke whale 3: 93–128
distance sampling 3: 258–264
distribution 2: 15–38, 3: 129–138, 3: 252–257, 4: 34–39
DNA methylation 2: 5–14
dorsal fin 3: 273–280
drone 4: 45–47
dwarf minke whale 3: 93–128, 4: 27–33
earplug 3: 239–245, 3: 246–251
electric lance 3: 307–316
embryology 3: 231–238
entanglements 3: 286–294
epigenetics 2: 5–14
Eschrichtiidae 3: 215–230
Eubalaena japonica 3: 252–257
feedback management 3: 301–304
feeding behavior 4: 34–39
fetus 3: 231–238
fishing buoy 3: 198–211
fin whale 2: 15–38, 3: 297–300, 4: 34–39
flipper 1: 15–24
fluke 3: 231–238
Gabon 3: 258–264
genetic tagging 3: 129–138
germinal layer 3: 246–251
growth 3: 273–280

growth-related change 3: 175–188
habitat 4: 7–18
Hachijo Island 3: 164–174
hind appendages 4: 43–44
histology 1: 25–28
humpback whale 2: 15–38, 3: 164–174, 3: 258–264, 3: 297–300
Indopacetus pacificus 3: 189–197
ingestion 3: 286–294
Japanese sighting survey 3: 198–211
Japanese whale sighting survey 3: 265–272
Kaplan–Meier plots 3: 307–316
killer whale 2: 15–38, 3: 175–188
large whale 3: 215–230, 4: 21–26
large whale species 3: 265–272
life history parameter 3: 93–128, 3: 239–245
line transect 3: 258–264
lipid contents 3: 281–285
marine macro debris 3: 198–211, 3: 286–294
microsatellite DNA 3: 139–151
minke whale clade 3: 93–128
minke whales 3: 307–316
monitoring 3: 301–304
morphology 3: 93–128, 3: 273–280
morphometric 3: 215–230, 4: 21–26
movement 1: 3–13, 3: 129–138
muscle tissue 3: 281–285
Mysticetes 4: 27–33
nasal cavity 1: 25–28
North Pacific 2: 39–53, 4: 7–18
North Pacific right whale 3: 252–257
nutritional condition 3: 281–285
olfaction 1: 25–28
olfactory epithelium 1: 25–28
ontogeny 3: 231–238
organic pollutants 2: 39–53
Oyashio 4: 7–18
Pacific white-sided dolphin 3: 273–280
passive acoustic monitoring 3: 297–300
paternity analysis 3: 139–151
photo-ID 3: 164–174
phylogeography 3: 152–163
POPs 2: 39–53
population structure 3: 139–151
proxy of earplugs 2: 5–14
residency 3: 164–174
revised management procedure 3: 301–304
satellite tracking 1: 3–13
sei whale 2: 39–53, 3: 152–163
sighting survey 3: 252–257
sika deer 3: 301–304
site fidelity 3: 129–138, 3: 164–174
skeletal measurement 3: 215–230, 4: 21–26
skull morphology 3: 175–188
subspecies 1: 15–24
southern bottlenose whale 2: 15–38

Southern Hemisphere 4: 34–39
southern right whale 2: 15–38, 3: 129–138
spatial distribution 4: 7–18
sperm whale 2: 15–38, 3: 297–300
Stenella coeruleoalba 4: 43–44
stock structure 3: 152–163
striped dolphin 4: 43–44
Taiji 4: 43–44
taxonomy 1: 15–24
teeth 3: 189–197
toothed whales 2: 15–38
Tursiops truncatus 4: 43–44
underwater sound 3: 297–300
unmanned aerial vehicle 4: 45–47
unmanned aircraft systems 4: 45–47
VTOL-UAV/ASUKA 4: 45–47
western North Pacific 3: 175–188, 3: 239–245, 3: 252–257
whale 3: 301–304
whale killing methods 3: 307–316
white patch morphology 1: 15–24
wintering ground 3: 164–174
worldwide 3: 152–163
ziphioid whales 3: 189–197
